

February 2025

A CLEAR PATH TO TRANSFORMATIONAL GROWTH

The Avino Mine Property

CAUTIONARY DISCLAIMER: FORWARD-LOOKING STATEMENTS

This presentation contains “forward-looking information” and “forward-looking statements” (together, the “forward looking statements”) within the meaning of applicable securities laws and the United States Private Securities Litigation Reform Act of 1995, including the mineral resource estimate for the Company’s Avino Property, including La Preciosa, located near Durango in west-central Mexico (the “Avino Property”) with an effective date of November 30, 2022, prepared for the Company, and references to Measured, Indicated, Inferred Resources dated October 16, 2023 as well as the Prefeasibility Study dated January 16, 2024 and references to Measured, Indicated Resources, and Proven and Probable Mineral Reserves referred to in this presentation. This information and these statements, referred to herein as “forward-looking statements” are made as of the date of this document. Forward-looking statements relate to future events or future performance and reflect current estimates, predictions, expectations or beliefs regarding future events and include, but are not limited to, statements with respect to: (i) the estimated amount and grade of mineral reserves and mineral resources, including the cut-off grade; (ii) estimates of the capital costs of constructing mine facilities and bringing a mine into production, of operating the mine, of sustaining capital, of strip ratios and the duration of financing payback periods; (iii) the estimated amount of future production, both ore processed and metal recovered and recovery rates; (iv) estimates of operating costs, life of mine costs, net cash flow, net present value (NPV) and economic returns from an operating mine; and (v) the completion of the full Technical Report, including a Preliminary Economic Assessment, and its timing. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives or future events or performance (often, but not always, using words or phrases such as “expects”, “anticipates”, “plans”, “projects”, “estimates”, “envisages”, “assumes”, “intends”, “strategy”, “goals”, “objectives” or variations thereof or stating that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved, or the negative of any of these terms and similar expressions) are not statements of historical fact and may be forward-looking statements. These forward-looking statements are made as of the date of this news release and the dates of technical reports, as applicable. Readers are cautioned not to place undue reliance on forward-looking statements, as there can be no assurance that the future circumstances, outcomes or results anticipated in or implied by such forward-looking statements will occur or that plans, intentions or expectations upon which the forward-looking statements are based will occur. While we have based these forward-looking statements on our expectations about future events as at the date that such statements were prepared, the statements are not a guarantee that such future events will occur and are subject to risks, uncertainties, assumptions and other factors which could cause events or outcomes to differ materially from those expressed or implied by such forward-looking statements.

Such factors and assumptions include, among others, the effects of general economic conditions, the prices of gold, silver, and copper, changing foreign exchange rates and actions by government authorities, uncertainties associated with legal proceedings and negotiations and misjudgments in the course of preparing forward-looking information. In addition, there are known and unknown risk factors which could cause our actual results, performance or achievements to differ materially from any future results, performance or achievements expressed or implied by the forward-looking statements. Known risk factors include risks associated with project development; the need for additional financing; operational risks associated with mining and mineral processing; fluctuations in metal prices; title matters; uncertainties and risks related to carrying on business in foreign countries; environmental liability claims and insurance; reliance on key personnel; the potential for conflicts of interest among certain of our officers, directors or promoters with certain other projects; the absence of dividends; currency fluctuations; competition; dilution; the volatility of our common share price and volume; tax consequences to U.S. investors; and other risks and uncertainties. Although we have attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. We are under no obligation to update or alter any forward-looking statements except as required under applicable securities laws. We are under no obligation to update or alter any forward-looking statements except as required under applicable securities laws. For more detailed information regarding the Company including its risk factors, investors are directed to the Company’s Annual Report on Form 20-F and other periodic reports that it files with the U.S. Securities and Exchange Commission.

The Company has not based its production decisions on a feasibility study or mineral reserves demonstrating economic and technical viability, and as a result there is increased uncertainty and there are multiple technical and economic risks of failure, which are associated with these production decisions. These risks, among others, include areas that would be analyzed in more detail in a feasibility study, such as applying economic analysis to resources and reserves, more detailed metallurgy, and a number of specialized studies in areas such as mining and recovery methods, market analysis, and environmental and community impacts.

Cautionary note to U.S. Investors concerning estimates of Mineral Reserves and Mineral Resources - All reserve and resource estimates reported by Avino were estimated in accordance with the Canadian National Instrument 43-101 and the Canadian Institute of Mining, Metallurgy and Petroleum (“CIM”) Definition Standards. The U.S. Securities and Exchange Commission (“SEC”) now recognizes estimates of “measured mineral resources,” “indicated mineral resources” and “inferred mineral resources” and uses new definitions of “proven mineral reserves” and “probable mineral reserves” that are substantially similar to the corresponding CIM Definition Standards. However, the CIM Definition Standards differ from the requirements applicable to US domestic issuers. US investors are cautioned not to assume that any “measured mineral resources,” “indicated mineral resources,” or “inferred mineral resources” that the Issuer reports are or will be economically or legally mineable. Further, “inferred mineral resources” are that part of a mineral resource for which quantity and grade are estimated on the basis of limited geologic evidence and sampling. Mineral resources which are not mineral reserves do not have demonstrated economic viability.

Peter Latta, VP Technical Services, Avino, a Qualified Persons for the Company as required by NI 43-101, has reviewed the technical information concerning the properties contained in this presentation for accuracy and have authorized its disclosure.

A PRIMARY SILVER PRODUCER AND EXPLORER IN MEXICO

- GROWTH PLAN TO BECOME AN INTERMEDIATE PRODUCER

PROJECT PORTFOLIO

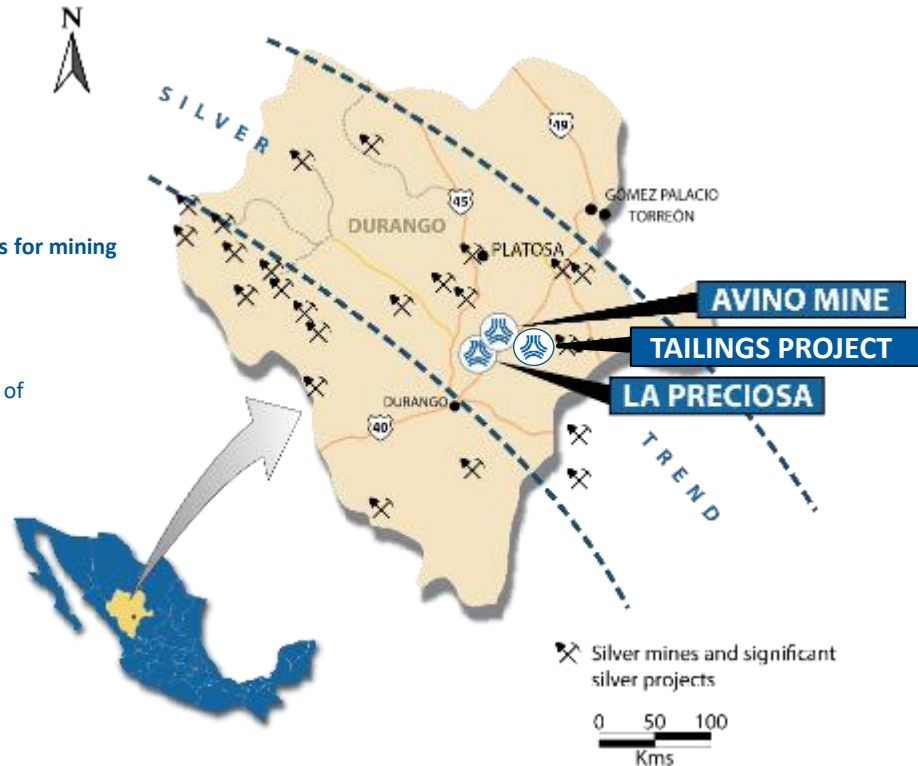

- **Avino Mine - Production**
2024 production – 2.6M AgEq ozs
2025 target – 2.5 to 2.8M AgEq ozs
- **La Preciosa - Development**
Acquired March 2022, Adjacent to Avino Mine in Durango
Underground Development has commenced, following receipt of all required permits for mining operations
- **Oxide Tailings Project - Development**
Pre-Feasibility Study Completed
Proven and probable mineral reserves of 6.70 Million tonnes at a silver and gold grade of 55 g/t and 0.47 g/t respectively

LARGE SILVER EQUIVALENT RESOURCE BASE

- 371 million AgEq Oz - Consolidated NI 43-101 Mineral Resources at October 16, 2023
- 60% Silver - Acquisition of La Preciosa shifts resources to primarily silver

CATALYSTS FOR GROWTH - FROM 1 TO 3 PRODUCING ASSETS

- La Preciosa - Future silver production asset
- Avino – Regional Exploration and Resource Expansion for future growth production
- Oxide Tailings Project - Future gold and silver production asset

PRODUCTION PROFILE BY PROJECT – 5 YEAR GROWTH TARGET

Transition from Single Production Operation to Three Producing Mines in Central Location

PRODUCTION PROFILE – RETURN TO PRIMARY SILVER

AVINO – RECENT MILESTONES AND ACHIEVEMENTS

GROWTH MILESTONES AND ACHIEVEMENTS	STATUS
<p>LA PRECIOSA – UNDERGROUND DEVELOPMENT COMMENCES, ALL REQUIRED PERMITS RECEIVED FOR MINING OPERATIONS – JANUARY 2025</p> <ul style="list-style-type: none"> • La Preciosa - Haulage of surface stockpiles to the Avino Mill Completed – April 2024 • La Preciosa Land-Use Ejido Agreement Signed – January 2024 	
<p>La Preciosa Planned Works</p> <ul style="list-style-type: none"> • Development Plans Complete • Surface works completed in preparation of commencement • Construction of most office and outbuildings are completed 	
<p>Oxide Tailings Project – Pre-Feasibility Study Completed</p>	
<p>ESR Designation Received – 3rd consecutive year – Award for CSR Initiatives and community support</p>	

FINANCIAL HIGHLIGHTS – Q3 2024

- Revenues of \$14.6 million
- Record quarterly gross profit of \$5.7 million,
- Mine operating cash flows before taxes of \$6.7 million
- Net income of \$1.2 million / \$0.01 per share
- Adjusted earnings of \$5.0 million / \$0.04 per share
- Operating cash flows of \$4.1 million / \$0.03 per share (\$3.9 million / \$0.03 pre-w/c adjustments)
- Cash on hand of \$7.8 million at September 30, 2024
- Working capital of \$15.9 million at September 30, 2024

2025 OUTLOOK

Production

- 700,000 to 750,000 tonnes to be processed
- Avino material - 1st half of 2025
- La Preciosa material - expected 2nd half of 2025
- Production of 2.5M to 2.8M AgEq ounces

Balance Sheet

- Approximately \$26 million in cash
- Debt free, excluding operating equipment leases
- Demonstrates significant cash flow generation through Q4 2024

Capital Budget

- Growth Capital
 - US\$6M - \$8M
- Exploration & Evaluation
 - US\$1M - \$2M
- Sustaining Capital & Mine Development
 - US\$6M - \$8M
- Total Capital Budget
 - **US\$13M - \$18M**

KEY TAKEAWAYS

- A primary silver producer and explorer in Mexico
- **La Preciosa milestone Achieved**
 - **Underground development has commenced following receipt of all required permits for mining operations**
 - **Underscores Avino's firm commitment to transformational production growth**
- Production of 2.5M – 2.8M AqEq oz from 700,000 – 750,000 tonnes
- **Cash on hand end of 2024 – \$26M and debt free**
- Pre-Feasibility Study on the Oxide Tailings Project – complete with *Inaugural proven and probable mineral reserves for Avino of 6.7 million tonnes*
- 371 million AgEq mineral resource ounces – decades of mine life
- Longevity – 57 years, proven track record
- Undervalued relative to our silver peers on P/NAV and EV/oz by many multiples
- Strong balance sheet and trading liquidity

5 YEAR GOAL -

STRATEGIC PLAN TO GROW ORGANICALLY & ACHIEVE INTERMEDIATE PRODUCER STATUS
LARGEST EXPANSION IN COMPANY HISTORY!

BOARD OF DIRECTORS

Peter Bojtos

Chairman and Independent Director

Mr. Bojtos is a Professional Engineer with over 50 years of worldwide experience in the mining industry. He has an extensive background in corporate management and financing, as well as in all facets of the industry from exploration through the feasibility study stage to mine construction, operations and decommissioning.

David Wolfin

President, CEO and Director

Mr. Wolfin brings 30 years of experience in mining and finance. He learned the business from the ground up, starting as a geologist's assistant in Nevada, a metallurgist's assistant at the Avino mine in Mexico and later in a number of mining and exploration-related capacities. In the late 1980s, Mr. Wolfin worked on the floor of the Vancouver Stock Exchange and also for several brokerage houses, gaining a solid foundation in the finance side of the industry.

Ronald Andrews

Independent Director

Mr. Andrews is the owner and operator of Andrews Orchards and sells and distributes agricultural chemicals and fertilizers. He is also the president of West Wind Property Inc., which is a property management and holding company. Mr. Andrews is on the boards of Bonner Mall and Coral Gold Resources Ltd., and he has served as labor foreman for Kennecott Mining Company, a division of Rio Tinto in the Arctic Circle. Mr. Andrews has a Bachelor of Science degree from Washington State University and a Masters in Political Science. He served as a helicopter pilot in Vietnam and is retired from the United States Army Reserves.

Carolina Ordoñez

Independent Director

Carolina Ordoñez is the recipient of the Top 10 Most Influential Hispanics in Canada, has over 15 years of experience in the resource sector as a liaison between Governments, Corporations, Mining subsidiaries, Communities, and Investors, with extensive experience in different regions around the world, including Durango, Mexico. Former roles include Executive Member of the Vancouver branch of Women in Mining.

EV/M&I AgEq. Resource Valuations⁽¹⁾

FOOTNOTES

Slides 8 – 11 - Cash Costs and AISC per silver payable ounce and Cost per tonne processed

1. In Q3 2024, AgEq was calculated using metal prices of \$29.42 per oz Ag, \$2,476 per oz Au and \$4.18 per lb Cu. In Q3 2023, AgEq was calculated using metals prices of \$23.57 oz Ag, \$1,929 oz Au and \$3.79 lb Cu. For YTD 2024, AgEq was calculated using metal prices of \$27.21 per oz Ag, \$2,295 per oz Au and \$4.15 per lb Cu. For YTD 2023, AgEq was calculated using metal prices of \$23.44 oz Ag, \$1,932 oz Au and \$3.90 lb Cu. Calculated figures may not add up due to rounding.

2. “Silver equivalent payable ounces sold” for the purposes of cash costs and all-in sustaining costs consists of the sum of payable silver ounces, gold ounces and copper tonnes sold, before penalties, treatment charges, and refining charges, multiplied by the ratio of the average spot gold and copper prices to the average spot silver price for the corresponding period.

3. The Company reports non-IFRS measures. These measures are widely used in the mining industry as a benchmark for performance but do not have a standardized meaning under IFRS and the calculation methods may differ from methods used by other companies with similar reported measures. See Non-IFRS Measures section for further information and detailed reconciliations.

Slide 19 – Updated Mineral Resources

1. Figures may not add to totals shown due to rounding.
2. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.
3. The Mineral Resource estimate is classified in accordance with the CIM Definition Standards for Mineral Resources and Mineral Reserves incorporated by reference into NI 43-101 Standards of Disclosure for Mineral Projects.
4. Mineral Resources are stated inclusive of Mineral Reserves.
5. Based on recent mining costs provided by Tetra Tech, Mineral Resources are reported at cut-off grades 60 g/t, 130 g/t, and 50 g/t AgEQ grade for ET, San Gonzalo, and oxide tailings, respectively.
6. AgEQ or silver equivalent ounces are notational, based on the combined value of metals expressed as silver ounces.
7. Metal price assumptions are US\$21/tr.oz. Ag; US\$1800/tr.oz. Au.
8. Metal recovery is based on operational results and column testing, 82% Ag and 78% Au, respectively.
9. The silver equivalent for the mineral resources was back-calculated using the following formulae:
 - a) ET, Guadalupe, La Potosina: $\text{AgEq} = \text{Ag (g/t)} + 71.43 * \text{Au (g/t)} + 113.04 * \text{Cu (\%)}$
 - b) San Gonzalo: $\text{Ag Eq} = \text{Ag (g/t)} + 75.39 * \text{Au (g/t)}$
 - Oxide Tailings: $\text{Ag Eq} = \text{Ag (g/t)} + 81.53 * \text{Au (g/t)}$

Slide 25 - 28– Sources: Company Material, Refinitiv Eikon (1) As of December 29, 2023 close (2) Based on fully diluted shares using the treasury stock method; (3) Silver equivalent is calculated using the following assumptions: Silver of \$24.00/oz, gold price of \$2,000/oz, copper price of \$3.25/lb, zinc price of \$1.10/lb, lead price of \$1.00/lb; (4) AgEq presented herein for Avino may differ from those presented elsewhere in this presentation.
